NEW YORK  
INSTITUTE OF FINANCE  
ESTABLISHED 1922

Jan 1, 2022

**Nickolas Black**

has successfully completed the online, non-credit Specialization

# Machine Learning for Trading

The courses will teach you how to create various quantitative and algorithmic trading strategies using Python. By the end of the specialization, you will be able to create long-term trading strategies, short-term trading strategies, and hedging strategies.

Jack Farmer  
Curriculum Director  
New York Institute of  
Finance

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
